First giving thanks to God Almighty for his power and asking him to lead us through these times that try men's souls...

As the world watches the United States of America prepare to do battle with the Arab States, many may wonder why the people of this once great nation tolerate such imperialistic behavior from their government and its leaders.

The fact is, we do not.

Today, there is a vast right wing conspiracy determined to remove William Jefferson Clinton from office before he plunges the world into Armageddon. Yes, we admit it. We don't like him. This latest accusation is dwarfed by a pattern of suspected treason, high crimes, and misdemeanors that have left a trail of dead bodies that one would only expect from a madman.

If he isn't the Anti-Christ himself, he must be the bastard step-child.

Regrettably, it may be too late. The President of the United States, like most other tyrants, has decided to engage in a "scorched earth policy" in order to stay in power. I.e., the current Middle East "dog wagging" is the threat that is held over the head of the American public for daring to challenge his authority. Some of us know all too well the reality of potential counter attacks on American soil by those determined to inflict "Revelation type" justice on our society.

But our leaders have only taken precautions for themselves. For years, they have stolen our blood, sweat and tears in order to protect themselves from the unintended consequences of their own unethical behavior - leaving the populace to fend for ourselves. We must share part of the blame. We have been warned from time to time about our leadership. We chose symbolism over substance. Image over integrity. Politics over principle. Many of us believe that this nation will soon reap what it has sown.

Alas! Witness what may be the final hour of the Great Babylon.

To our foreign brethren, your grievance with this nation is with its government, not its people. In the recent years, we have also suffered the wrath of their authority, but not nearly as much as you. Forgive us, for we know not what we have done. We believed the lies and called it patriotism. We listened to the propaganda and called it politics. We tolerated the immorality and called it "in the interest of National Security." If you are the tired, the poor, and the huddled masses yearning to breathe free, WE THE PEOPLE are not your enemy. In fact, we may have a common enemy.

...And with that, I will now address the government of the United States of America:

On behalf on the sovereign citizens of the several states, we now understand the true doctrine of Washington, D.C. We, the people of the United States of America are expendable. We may be needlessly sacrificed in order for you to maintain the authority over the world that you have not earned. While there have been clear warnings about the threat of retaliation against us, you have told us nothing. Nothing but sex, lies, and audiotape.

You took an oath to protect us from all enemies both foreign and domestic, then violated it in for your own self-interest. You have sent our depleted armed forces overseas to kill innocent humans while leaving us defenseless-even attempting to remove our last and only hopes for self-defense. We believe that every man has the inalienable right of Life, Liberty and the Pursuit of happiness. You have legislated (taxed) our happiness out of existence. You have adjudicated our liberties to mere privileges. You now threaten our right to live.

BUT WE SHALL NOT BE MOVED.

The excuses for this upcoming battle are petty. The only thing that justifies this aggression is Biblical prophecy. The United States of America is quickly becoming the enemy of the world. The Fourth Reich. The lone threat to mankind. We all know that the only thing a person needs to construct weapons of mass destruction is the will to do so. No amount of death and destruction will serve as a deterrent - nor will it protect you from the inevitable...

Let these facts be known to a candid world:

If and when crimes against humanity are committed in the Persian Gulf, it will cause a justifiable counter-response in this country. At the point that American blood is spilled - military or civilian- in mass due to this unwarranted conflict, the greatest enemy against the United States government, will no longer be foreign, but domestic. We will have a responsibility to humanity of neutralizing the enemy to the existence of mankind - using whatever means at our disposal, leaving the concept of mercy to God, and to Him only. Until such time:

We will **CELEBRATE** when military rank-n-file refuse to obey the orders of this commander-n-chief.

We will **PRAY TO GOD** that this Commander-n-Chief is arrested and punished for Acts of Treason.

We will **REJOICE** when the Department of Treasury collapses due to your electronic shortcomings.

We will DANCE FOR JOY when Martial Law is Declared. We will no longer have recognize any federal authority as anything but common criminals.

Yes Hillary, this IS the final battle. The battle to rekindle the flame of Liberty for all mankind. A battle that has raged from the Greens of Lexington and Concord to Fort Sumter to the Streets of Los Angeles to Mount Carmel and beyond. We are already at war. We claim victory in the fact that you will have to kill all of us; for the final victory will not be on this planet. You have already lost. It has been written. May those that stand by you also perish in their own pathetic ignorance.

You have left us with the choice of a brutal death by the hands of a foreign power, or the slow death inside a federal prison. There is no longer a difference. You can no longer rule by fear. The fear of Divine Justice is now upon you. We are on the march. You are on the run. With God as Our Commander-in-Chief, death is a mere reward. Although we may have our differences, liberty, freedom and righteousness are the common threads among us that we will DIE to protect. We are doing this for OUR children. We will not submit. We will not submit. WE WILL NOT SUBMIT.

Remember this, Clinton: "For we are ALL God's children- And as God's children we will stand on our own two feet, and crawl before NO man!"

This is our Testimony. This is our Gauntlet....

This is the Great Reckoning.
